

The Mary Garden at St. Brigid's Church

The Mary Garden is one of the more unique civic gardening projects maintained by the Lexington Field & Garden Club.

This serene garden has been maintained by the garden club prior to 2017.

This garden exhibits numerous perennials: Vinca minor, Daffodils, Astilbe, Rhododendrons, Azaleas, Irises, Heuchera, Daylilies, and Hosta. Previously, the Mary Garden was tended for many years by Wednesday Workshop. The current steward is Regina Sutton.
